TELEGRAMS

(via Galveston.)

Washington 26th.—To-day, up to noon, Mr. Blaine, Secretary of State, had not received any reply from Chile to the ultimatum. Nevertheless, it is said that a despatch was sent from Santiago last night, the terms of which are expected to be made known at any moment. Great anxiety prevails.

Hamburg, 26th—The negotiations for the cession of Cuxhaven to Prussia are almost concluded. In return, the islands of Wilhelmsburg, Georges, Warker and Altona will be given to Hamburg.

Cairo, 26th—The new Khedive reviewed to-day the troops of the garrison on their taking the oath of allegiance. The ceremony took place in front of the Abdin Palace, and was very imposing. The British officers also took the oath.

Madrid 26th.—The leaders of the Anarchists who recently attacked the city of Jerez have been arrested.

Vienna 26th.—The Duchess Louise Guillermina, widow of Duke Maximilian of Bavaria, and mother of the Empress of Austria, is dead.

Rome 26th.—Eminent prelates say that there will probably be no fresh nomination of Cardinals until the next Consistory is held.

Paris 27th.—Influenza is spreading over the whole city. The hospitals are so full of patients that the military barracks have been turned into hospitals to meet the fresh cases.

Berlin, 27th—The Emperor has had a conference with von Redlitz, Minister of Education, on the difference of opinion about the Education Bill. Mikel has deferred to the wishes of His Majesty and will remain as Finance Minister untill the Bill is discussed.

London, 27th—The anniversary of Gordon Pasha, who died at Khartoum, was celebrated to-day.

Washington, 27th—The reply of Chile to the ultimatum has just been received. The greatest reserve as to its contents is maintained. The warlike agitation continues. The brother of the officer, Riggins, who was killed by the Chilians in Valparaiso, has put in a claim for indemnity.

London 27th.—There has occurred an encounter between the police and the Socialists at Chelsea. Several of these were wounded and many arrests made.

Berlin 27th.—The advices to hand have given rise to fears that serious encounters have occurred between the Germans and the natives in the East of Africa.

Madrid 27th.—The Treaty of Commerce between Spain and Switzerland has been extended to the 30th of June next.

Rome 27th.—It is known in the Vatican that Austria and Germany are working in favour of Cardinal Vannutelli as successor to the Pope.

Paris, 27th—The United States Minister, Mr. Reid, is ill with influenza.

St. Petersburg, 27th—Thousands of peasants in the famine-stricken districts have started for Siberia, hoping to better their condition there.

THE CHILIAN QUESTION.

According to yesterday's telegrams public excitement is intense both at Washington and Santiago with respect to the difficulty that has arisen between the United States and the model-republic of South America. It is admitted on all hands that Brother Jonathan received great provocation. On the 16th October a boat's crew of the U. States corvette Baltimore was attacked by a mob in the streets of Valparaiso, when two of the men were killed and the rest taken prisoners to the Police-office.

If the Chilian Government had promptly punished the criminals and apologized to the Cabinet at Washington the affair would have been long since forgotten. But, so far from any expression of penitence the Chilian Executive adopted quite another tone, denying any responsibility as regards the riot at Valparaiso, and even venturing to demand the recall of the American Minister, Mr. Egan. As if still more to exasperate the Washington Government a circular note was issued by the Chilian Minister of Foreign Affairs on December 13th which forms part of the subject of the Ultimatum now presented by Pres. Harrison to the Cabinet at Santiago.

It is not yet clear what course the Chilian Government will adopt. At first it was rumored that they resolved to give the utmost satisfaction to the U. States, but later advices would seem to point to an impending rupture. In the latter event it is quite possible that an American squadron may be despatched to bombard the ports of Valparaiso, Valdivia, Iquique etc. and even to land an army on Chilian soil.

Should a conflict of this kind ensue no European Power is likely to interfere, as the Munroe doctrine has been already explicitly or implicitly recognized by all European nations. It is true that a bombardment of Chilian ports would destroy more British property than Chilian, but British residents would have no claim against either Chile or the U. States. According to the law of nations the American Government would be simply exercising a right to make war, and the Chilian Government would be nowise responsible either.

Cases of this kind are clearly laid down by Vattel, Bertodano, Calvo and other commentators. Thus if the republic of Uruguay were to declare war against Argentina the Almirante Brown might knock down the Banco de Londres at Montevideo, and the Uruguayan fleet burn the Nelson Meat Factory at Quilmes, without any claim arising against either the Argentine or the Montevidean Governments. We may remind our readers of the case of Mr. Patrick Gannon, of Bella Vista, Corrientes, whose estancia was sacked and burnt by the Paraguayan army in 1864. The Law Officers in London notified him that the Paraguayans were quite justified in performing an act of war, and that the Argentine Government was not responsible. Every Government, they added, is bound to protect foreign settlers against brigands, marauders and civil war, but not against a foreign or invading enemy.

A similar case was when the German army around Paris broke into the country-house of Mr. Balcarce, Argentine Minister, and drank 34 dozen of his choice wines: he received no indemnity either from Germany or France.

Hence it becomes a very serious matter for the British residents of Valparaiso and Iquique what resolution the Chilian Government may come to in the present critical turn of affairs. Many of the English people of Buenos Ayres freely express a hope that Chile may defy Jonathan, and there is a widespread opinion that the Chilian fleet would be well able to fight any squadron that the U. States can send to the South Pacific. However the campaign might go at the outset we have no doubt that the Americans would ultimately prevail, and the destruction to property would be very great.

There are perhaps few people now living in Chile or the U. States who can remember a serious trouble that occurred 40 years ago between these countries. An American ship-captain at Valparaiso, who went mad through sunstroke, ran a-muck in the streets of that city, killing three persons. The American Minister demanded his surrender, in order to send him home as a lunatic, and in the notes exchanged between the American Legation and the Cabinet of Santiago so much bitterness ensued that the Chilian authorities at last hanged the captain off the end of the pier, in sight of all the shipping.

As regards the present difficulty we can only say that if two British or German men-of-war sailors had been killed, instead of Americans, the matter would have been not a bit less serious.

OUR LONDON LETTER.

THE NEW DUKE.

(From our own Correspondent)

Dec. 25th.

It is possible that in the moral as in the physical world there are no periods, no full stops, no notes of exclamation. Only to our own local conceit and shortsightedness does the death of an inoffensive old gentleman in the midland counties appear an event. Within the narrow limits of local politics, the demise of the Duke of Devonshire marks to a certain extent an epoch. He himself, able, irreproachable and scholarly as he was, was but a lingering shade of a bygone generation. What now interests the political world is the absorption of Lord Hartington's gladiatorial personality in the ducal title and responsibilities, and the probability of his forsaking the dusty arena to marry and settle down as a great land-owner.

Lord Hartington was born at Chatsworth in 1833. As a political personage he dates from the close of the Crimean war. He accompanied Lord Granville to St. Petersburgh when in 1856 that nobleman represented Great Britain and Ireland at the coronation of the Emperor Alexander II. of Russia. In the following year Lord Hartington was returned for North Lancashire in the Liberal interest. In 1859 he moved a vote of "want of confidence" in the second administration of Lord Derby. In the Palmerston ministry which followed Lord Hartington was Under Secretary of State for war. In 1865 Earl Russell, after the death of Lord Palmerston, raised Lord Hartington to cabinet rank. In July 1866 the Liberal Government was overthrown. At the general election of 1868 Lord Hartington was rejected by his Lancashire constituency who then opposed the Liberal watchwords "Disestablishment and Disendowment of the Irish Church" introduced by Mr. Gladstone, as they have since opposed Home Rule. He found a seat for the Radnor boroughs, and Mr. Gladstone included him in his cabinet and afterwards made him Irish Secretary, a post he retained until the defeat of the government in 1874. When Mr. Gladstone sulked and withdrew temporarily from political life, Lord Hartington was, at the suggestion of Mr. John Bright, Mr. Villiers and Mr. Samuel Morley, elected by a committee at the Reform Club leader of the Liberal party. This position he held until 1880 when Mr. Gladstone had emerged from retirement, and by his celebrated "Mid-Lothian Pilgrimage" had awakened a new feeling among the constituencies which resulted in the ejection from power of Lord Beaconsfield. Lord Hartington had been meanwhile returned for North East Lancashire, and in conjunction with Lord Granville was sent for by the Queen to form an administration. Both these noblemen felt that their power could only be vicarious, and, in the end her Majesty had to send for Mr. Gladstone, who once more became Prime Minister. In 1882 the Marquis of Hartington was again made Secretary of State for War, replacing Mr. Childers. He loyally assisted the Gladstonian Government in passing the bills for the extension of the franchise and redistribution of seats against the determined opposition of the Conservatives; and, when in 1884 the Government was thrown out on the budget question, Lord Hartington was in the following year at a general election under the recent Acts, returned for the new division of Rossendale, in Lancashire, which place he still nominally represents. Since the Conservatives under Lord Salisbury returned to power in 1886, in obedience to the public disapproval of Mr. Gladstone's ill-advised method of "rushing" so important a question as Home Rule, Lord Hartington, as we all too well remember, has participated openly in that disapproval, and, with Mr. Chamberlain and other Liberal and Radical dissentients, has formed the still-existing party of so-called "Unionists."

The present point is what effect will Lord Hartington's accession to the peerage have on the future of that party, the leadership of which in the House of Commons is now universally ascribed to Mr. Chamberlain. Owing to the legal formalities required in proving his title to the dukedom of Devonshire, Lord Hartington may not resign his seat for Rossendale immediately, and the new election may not take place for some weeks. Meanwhile both parties are in readiness. The respective candidates are Sir Thomas Brooks on the Conservative side and Mr. J. H. Maden on the Liberal. Both candidates are local men of wealth and high standing, and of respectable commercial descent. Sir Thomas Brooks has always acted as chairman of Lord Hartington's committee in Rossendale, and will of course receive the whole aid of the Devonshire interest. The Devonshire-Lancashire estate is, as everyone knows, at Holker, where the late Duke died. The other estates are Chatsworth in Derbyshire, Hardwick, Bolton Abbey in Yorkshire, and Lismore in Cork. The London residence of the family is at Devonshire House, Piccadilly, and they have a small estate in Sussex, Compton Place, near Eastbourne. The rental of the estates is about £150,000, of which £90,000 comes from Derbyshire. The burial of the deceased Duke takes place to-morrow at Edensor, a small village a mile and a quarter from Chatsworth, and rich in associations connected with the great Whig family of the Cavendishes, the origin of which, like that of many English noble houses, is not distinctly traceable. Lord Frederick Cavendish was buried at Edensor, and close to his grave the old Duke, at his own request, will be laid. When the mourners have returned to their homes, and the ducal coronet is firmly fitted on the head of the present owner, we shall from time to time hear either that the new Duke is using all his influence in the House of Lords in opposing the return of Mr. Gladstone to power, or that the Duke's stud of race-horses is being quietly increased for future operations at Epsom, Aintree and Newmarket, or that, weary of the world, His Grace, at the early age of 58, has resolved to go permanently into gaiters and knickerbockers, unless twelve months hence a fair duchess decrees otherwise. It is well known that the Marquis of Hartington, though by no means so stolid as he looks, has no taste for political wrangling or for miscellaneous society. But thorough Englishman that he is, his high sense of duty would bring him to the front were he at any time convinced that those institutions of the country he has learned as a member of an old Whig family to prize as well as to renovate, were endangered by a too ardent democracy. At the same time it must be confessed that beyond reliability of character and social influence, he possesses no qualities that could contribute to the fortunes of a political party. As the Marquis of Hartington and a commoner, he could actively engage with some success in the contests of the political arena. As the Duke of Devonshire he can represent but that passive resistance to innovation which characterises the bulk of his fellow countrymen, and that as social conditions change becomes year by year less formidable—less impenetrable. Upon the whole it may be predicted that the Liberal cause will gain by the translation of Lord Hartington to the peerage.

BRAZIL.

OUTRAGE OM THREE ENGLISHMEN.

Messrs. Templeton, McNaught and myself are employed in the London and Brazilian Bank, and together with other members of the staff live in the Bank house, No. 264 Rua Conde de Bomfim, Tijuca. On Sunday, January 3rd, Mr. Templeton and I left the house for a stroll up the road, as is often our custom before turning in at night, and on returning we were met a short distance from our gate by Mr. McNaught, who was wearing a mask. At this moment a bond passed by from which two policemen alighted and approaching Mr. McNaught told him that to wear a mask in the street was contrary to law and that he must hand it over to them. Mr. McNaught at once took off the mask and was handing it to them when Mr. Templeton, who not understanding the language, thought the wearing of the mask the sole cause of the trouble, snatched it from Mr. McNaught and tore it into two pieces, throwing them over the bridge against which he was standing. Without more ado one of the policemen drew his sword and struck at Mr. Templeton's head, just missing the skull but almost severing the left ear. We were then forced to accompany them to the bond terminus at Tijuca, where we expected to get a proper hearing, and went quietly enough, and yet we were hustled and insulted the whole way, and Mr. Templeton was again struck with the sword. On reaching the venda at the end of the line we had to await the arrival of a reinforcement of police accompanied by some plain clothes official who listened to the tale told by the policemen but who would not hear a word from Mr. McNaught, the only one of us three who understands the language. Some of the men were sent to recover the mask and during this time one of the policemen who arrested us disappeared and shortly returned with a square patch torn out of his coat. Templeton's ear was now bleeding profusely and Mr. McNaught bound it up with a handkerchief which was afterwards torn roughly away by one of the men and we were marched off to prison, having to walk a distance of several miles in our slippers, not being permitted all the while to exchange a word with one another and being subject to vile insults and blows. We were first marched to the house of a sub-delegate who refused to see us until morning and consigned us to the station at the Fabrica, where we were searched and threatened with sticks and swords and finally thrown into a stinking cell of not more than seven feet square, where we had to spend the night, being forbidden to converse with threats of having our brains blown out. In the morning one of the men (not in uniform) took a rifle and sat in front of our cage, carefully loaded it and pointed it at us with his finger on the trigger and threatened to blow out the brains of the English dogs. At 9.30 a.m. we were again marched to the sub-delegate's house, arriving there at 9.45. The sub-delegate was not at home and would not return until 10.30, and for three quarters of an hour we were forced to sit on a doorstep right in the glare and heat of the sun while the men in charge of us lounged in the shade on the other side of the road and dared us to move. All this time Mr. McNaught was without a hat and we were nearly all faint with heat and with thirst. The sub-delegate when he eventually arrived took the statements of the police, but refused to listen to Mr. McNaught. The police here stated that we all three had been masquerading and on being remonstrated with had violently assaulted them, tearing the coat of one in the struggle and only being captured after a determined resistance. A coat was here exhibited purporting to be the one torn by Templeton, but on which he had not laid a finer and again the tear in the cloth had been much enlarged since the previous evening and was all rough and jagged. From this place we were consigned to the Central Police station, and although we were in slippers and McNaught was without a hat, we were compelled to walk the whole way. Until we reached the more crowded part of the town we were not allowed to walk in the shade but were made to keep in the middle of the road, being told first to walk fast and then to walk slowly, and being pushed and cuffed because we did not understand. The torn coat was enclosed in a parcel and Mr. Templeton was forced to carry it. Mr. McNaught was hatless for about half the journey, and then a hat was snatched from an old negro and clapped on his head. And thus we were compelled to walk through streets which we traverse day and night on our way to and from the bank. The policemen were drunk when they arrested us, and on the way to town on Monday morning they stopped at several vendas to drink, and the more they drank the more quarrelsome they became, striking at almost every negro they could reach.

We arrived at the Central police station at about 12.30 p. m. after being three hours in the sun and without food since the previous evening. On our arrival we were immediately taken before one in authority, who understands English and who treated us with great consideration. After relating our experiences to him we were put into the common prison, where we remained a few hours and were then released without fine or admonition, and we have since had our money etc. returned to us.

The action of those in authority at the Central station seems so decidedly to show that no crime had been committed and how little they believed the tale concocted by the police, that I and my friends do not think the matter should be allowed to rest here. Our treatment by the police could not possibly have been worse or less deserved, and it is high time that the chief of police should be acquainted with the way in which the brutes invested with authority abuse their power.

Mr. Templeton's ear was not properly seen to until the Monday night, and the doctor who we then called in expressed his opinion that it would be impossible to save the ear and that an amputation would have to take place.

MUTINY IN RIO.

The Santa Cruz and Lage garrisons at the entrance of Rio mutinied on the morning of the 21st inst. The *Gazeta de Noticias* supplies the following particulars:—Thanks to the energetic attitude of the fleet and of the 7th and 10th battalions of infantry, the mutiny was suppressed and the mutineers were taken prisoners. The President of the Republic and his ministers passed the night in the Arsenal. At half past 4 a.m., the war and marine ministers and a number of high officers went on board the iron-clad Riachuelo, and headed the squadron, which steered towards the forts held by the mutineers. The mutineers fired two shots which did no harm. The Ministers resolved not to bombard the forts, at least for a few hours. In the meantime, the infantry approached the forts, which opened fire on them. This decided the Ministers to immediately bombard the forts; several balls were fired, injuring the forts. The infantry continued to approach the forts, and the mutineers seeing themselves between two fires, hoisted the white flag and surrendered. The Ministers entered the forts to cross-examine the mutineers. Their excellencies only found one man wounded, mortally, a sergeant who had received a bullet through his neck from one of his own men by mistake. The sergeant stated that he had been invited to several meetings in Rio and that it had been decided to overthrow President Peixoto and restore Deodoro, who within eight days would hand over the government to a Junta.

The troops were greatly complimented on their valor; and when they took the forts, their officers addressed them in such touching terms as to cause the men to weep.

LATEST FROM MONTEVIDEO.

Jan. 27th.

The Government yesterday received a telegram from Dr. Ellauri stating that the syndicate formed to start the new bank insist on having the exclusive right of naming the president of the Bank. This is the real difficulty in this bank question. The Government want to have control over the bank, and of course for this purpose they require to have the right of appointing the president. The syndicate on the other hand know very well what the right of appointing the president means. It is thought here that the syndicate will carry their point. Another difficulty appears to be the refusal of the syndicate to determine a date for the opening of the bank. In the meantime the deputies have received no intimation as to when the debate on the Bank Bill is to come off.

It was rumored yesterday that there was a suspicious case of yellow fever on board the Nord America. The rumor, however, is unfounded.

A new political association is to be organised under the denomination of Union Civica on the same lines as the Union Civica in Buenos Ayres. The idea is to be discussed at a general meeting to come off on the 7th prox.

"And ladies and gentlemen," said the temperance lecturer, "what has filled more graves than whisky?" "Doctors," squeaked a still, small voice in the back part of the hall.

PROVINCIAL NEWS.

The latest news from Mendoza is that the Radical Club there has issued a manifesto to the people. The Interventor issued a manifesto to the people, too, from which it would seem that the sovereign people is a spectator and does not take any part in the little comedy. We have always maintained it. The people take no part in politics, and take very little interest in the ups and downs of the political game. The manifesto of the Radical Club is a document overflowing with eloquence, patriotism and indignation. It calls the attention of the people to the fact that during 20 years their dearest rights have been violated. The Radicals call upon the people to uphold their rights. In the meantime the Interventor is busily engaged in putting things straight. Every morning he turns up early at the Government House, his escort of fifty men presenting arms at the door. Governor Ortiz asked the Interventor to devote some attention to the complaints that the Radicals had imported arms from Chile. We may here state that, according to a telegram published by an evening contemporary yesterday, the Interventor's men have discovered fire-arms in the Radical Clubs. If this be true, the question arises, where did the firearms come from?

Santiago del Estero is beginning to follow the example of several sister-provinces and to wax politically furious. The sovereign people were surprised on Tuesday to find fly sheets carefully placed under the knocker of every door, setting forth the advisability of electing Mr. Francisco Olivera as Governor, and Mr. O. A. Sosa vice-governor. The friends of these two gentlemen had something to do in the matter.

Rosario is again a prey to revolutionary alarms. The people are getting quite accustomed to them now. The police are under arms every night and are being well fed. Strategic positions have been taken. All these bellicose preparations are the logical consequence of certain Radical threats which have reached the ears of the authorities.

Another provincial crime this time in Azul. A young man named Rufino Rodriguez was stabbed in the back by a political adversary. The townspeople are very much alarmed, and with good reason, if it be true that the criminal is knocking about the town unmolested by the police.

Politics, of course, rule the roast in La Plata. There is a Saenz-Peñista hue about everything. The other day a Justice of the Peace was appointed. The gentleman on whom the appointment fell was not of the new school, although it was thought that the appointment would alter his political ideas. However, the gentleman was true to his colors, and the result was that he was informed his appointment was a mistake.

It was rumored yesterday and the rumor caused a rather unpleasant feeling—that the troops in the Chaco under General Donovan had mutinied. The rumor turns out to be untrue.

Advices from Esperanza, Santa Fe, report a horrible murder. Mrs. Stoessel, relict of the late Argentine Consul in Basle, Switzerland, lived all by herself in a quinta in that colony. The other morning she was found dead and in a terribly mutilated condition, in her bedroom. The criminal or criminals have not been captured. It is supposed that she was murdered for the little money she had in the house.

REGISTRATION OF TEMPERATURE.

Mr. Editor,

The extreme heat of the season and the constantly recurring erroneous statements of relative degrees of temperature in the public papers, naturally draw one's attention, at the present time, to thermometric questions.

The three forms of thermometer in use, the Fahrenheit, the Celsius and the Reaumur, of course, all register the same fact, but differ in graduation. The distance between the freezing and the boiling points of water in a column of mercury, being a fixed quantity, is divided in the first into 180 equal parts in the second into 100 and in the third into 80. But as the Reaumur is but rarely employed, we may confine our attention to the Centrigrade and Fahrenheit alone.

What induced our friend Fahrenheit to fix upon the numbers 32 and 212, for the freezing and boiling point of water respectively, has never yet been satisfactorily ascertained; but most probably his intention was twofold: first to dispense in a great measure with minus or negative quantities, and secondly to secure an advantageous smallness in the intervals between the degrees. However that may be, he certainly is answerable for all the subsequent confusion that the dual method of registration has introduced into non-arithmetical minds.

If then 100° C = 180° F, the simplest possible relation that can exist between the values of the degrees in the two systems must be 5° C = 9° F, as these numbers 5 and 9 are prime to one another: and any number of degrees of the one can be readily converted into the corresponding number of the other, by means of this relationship; remembering when converting degrees of C into F to add 32 at last, and conversely to subtract 32 before proceeding to change F into C.

In order to change degrees Centigrade into Fahrenheit, double the number of given degrees, then take a tenth of this double and subtract it from the double, the remainder with 32 added indicates the corresponding number of degrees F.

Fahrenheit may be changed into Celsius by taking a ninth part of half the given number (minus 32) of F, and adding it to half the given number (minus 32).

When I was in the United States the winter was very cold. Yankees look unhappy if they are not allowed to monopolize the biggest things in creation, whether in temperature or cabbages; so, for my own peace of mind and to give no offence, I listened with composure to a statement that, a day or two before, a temperature of 54° below zero had been registered in that country: this —54° signifies, as F is used there, a frost of $54 \times 32 = 86^\circ$. The lowest mean temperature yet taken on the earth surface of the globe is —$56,8^\circ$, in the North Eastern part of Siberia.

Now Mercury freezes at —$37,9^\circ$ F and for some time before it reaches that point is unserviceable on account of partial loss of fluidity; and absolute alcohol itself, although very difficult to freeze, at very low temperature is scarcely reliable, owing to a tendency to become viscous.

TRANSANDIE RAILWAY COMPANY.

The directors of this company, with their report submit to the shareholders the accounts of the company, made up to 30th June, 1891, duly audited. They state, that the first four sections of the company's line—from Mendoza to Uspallata, a distance of 91½ kilometres—after having been duly examined and approved by the inspecting engineer appointed by the Argentine Government for that purpose, were opened to public traffic on the 22nd of February, 1891. In accordance with the terms of the works contract, Messrs. J. E. and M. Clark and Co., the contractors, are entitled to work for one year after opening, the sections now delivered to public traffic. The directors, not having yet received particulars of the traffic from the local board, are not now in a position to publish any account of the result of such working. Application has been made to the Government for the inspection of a further portion of the line between Uspallata and Rio Blanca, a distance of about 28½ kilometres, with a view to opening the same to public traffic. The progress made in the construction of the line during the year to June 30th, 1891, has not been so great as had been anticipated, owing mainly to financial embarrassments. The works were at one time almost at a standstill, and although since resumed, are still delayed. Owing to the disturbances in Chili the stoppage of work upon the line from Los Andes towards the frontier, under construction by Clark's Transandine Company, and to other causes, the directors have considered it advisable, in the interests of the company, and in accord with the contractors, to petition the Argentine Government to permit the establishment of a temporary terminus of the Company's line at Punta de las Vacas, kilometre 142, a point considered by the company's engineers as most convenient, under the circumstances, for the development of traffic with Chili, and to grant an extension of time for the execution of the works generally. When sufficient work has been completed in the tunnels on the Chilian side, the directors hope that operations on the company's line may be resumed, and the Transandine Railway connection between the Atlantic and Pacific Oceans completed. Efforts are being made to arrange for a system of through communication from Buenos Aires to Chili, pending the completion of the definitive tunnels. In August last, application was made to the Argentine Government for payment of the guaranteed interest accrued for the half-year upon the capital represented by the sections opened for traffic on the 22nd February, 1891. Up to the present, however, the Government has made no payment on this account. The board is informed that one reason alleged for delay is, that the contractors have not completed certain works within the period fixed in the decree permitting the opening. The liability to complete all these works is disputed by the contractors, and, moreover, the board is advised, that the Government is not justified upon this ground in delaying the payments of guarantee, in respect of sections opened under its sanction. The whole subject of guarantee has been thrown into confusion by the repeal of the law of 1888, which laid down reasonable principles as to the mode of repayment by railway companies, of sums paid by Government on account of guarantee. The new regulations require the companies to pay, or account for, a proportion of the gross earnings as a condition precedent to the settlement and payment of the guarantee. This retroactive Legislation is considered illegal, but the board will act in the matter with a view of obtaining the best settlement in the interest of this Company. As the interests upon the debenture stock was not met, a receiver has been appointed, at the instance of a holder, by the Chancery Division of the High Court of Justice, of all moneys accruing to the company in respect of revenue, and the same will, as and when received, be distributed under the direction of the Court.

RAILWAY ITEMS.

The National Railway Board have issued an important report on the question whether the railway companies have a right to set forth in their "guias" that they are not responsible for delay or damage in the carriage of goods. The Board find that the companies have no right whatever to make any such statement. The Board have therefore resolved to issue a circular to the railway companies, informing them that henceforward they must refrain from printing on their "guias" the aforesaid condition or statement. The report of the Board is a clean, logical document, which brings the Commercial Code and the Railway Act to bear on the question. Article 204 of the Commercial Code states that any stipulations or clauses eluding the responsibilities imposed by the Code are nul. The National Railway Board are authorized by the Railway Act (Art. 69) to decide the question at issue, and, should the companies refuse to comply with the resolutions adopted by the National Railway Board within two months from publication of these resolutions, the Board will proceed, in accordance with Art. 69 of the Railway Act, to fine the companies.

In other words, the railway companies are responsible for delay or damage in the carriage of goods. We hold a copy of the report and decision of the Board at the disposal of any of our readers.

The National Railway Board, in their report on the guarantee-account of the Central Northern Railway for the half-year ending August 1891, have advised Government not to pay, unless the account bear the signature of the national interventor. The amount due is $400,000 gold.

Mr. Scurot, C. E., has reported to the Board of Public Works that, according to the inspection of the reconstruction works of the Central Northern and his calculations, only 3 millions of the 5 millions, upon which the state is paying guarantee, were really sunk in repairing the line. A fuller report on the subject will be published in a few days.

The Government has authorized the North-East Argentine Railway Company to put up pillars of masonry under the bridges over the San Lorenzo, Pasito and Esterito, instead of wood.

A London exchange of December 26 says:—

"We note a suggestion for the amalgamation of the Buenos Ayres and Rosario and Central Argentine Companies, and the promise of a saving of £100,000 per annum in the net receipts of the two companies is held out. Circumstances have changed considerably since the former scheme for amalgamation fell through. But that does not necessarily mean that an insuperable barrier against fusion exists. Amalgamation we dare say, advisedly, would be easier now than 12 months ago. Misfortune oftentimes begets a kindlier mood, and all the Argentine lines just now have to struggle against great difficulties. It seems but yesterday since the chairman of the Rosario was surprised the ordinary had fallen to 114, and he predicted a speedy recovery. This week the quotation has been in the neighbourhood of 62½, with the Central Argentine at 42½."

The Argentine Great Western Railway not having paid the Treasury the surplus of receipts over working expenses; nor discounted from the guarantee 50 per cent of its gross receipts; nor presented its accounts revised by the National Interventor, the Government has resolved to liquidate the guarantee of this line under Law 2265, without prejudice to what it owes. The Company must lodge in the Treasury the superavit, or it will be deducted from the guarantee. Dr Plaza, in London, has been informed of this.

EDITOR'S TABLE.

Yesterday was a demi-semi day: nothing to turn one's hair grey; nothing to make it grow. The Chilian question was the topic in foreign circles, and politics, still politics, amongst our adopted countrymen. There was nothing very fresh on either burning subject; but an Anglo-Argentine subscriber informs us that "politics have gone to the dogs"—a most appropriate place for them.

President Pellegrini will resume the reins of Government to-day.

There are rumours of some queer news from Chile. Some people deny them: others swear they are true. They seem to have sprung from the refusal of the Minister of Foreign Affairs to give the Argentine Minister in Chile leave of absence just at present.

A resident at San Miguel, 22 kilometres from Palermo, informs us that on Monday night the flash of the electric search-lights of the torpedo-boats at the latter place were plainly seen by him and others.

The candidature of Dr. Saenz Peña for the Presidency will be proclaimed in La Plata to-day: so half-holiday will be the "mot d'ordre" in the enchanted but now rather impecunious capital of the Queen Province.

Our unfortunate London friends have asked for more time to change their National Bank shares into National Bonds; but our financial Cato has refused to grant the favour. "Time up" is his motto.

That deservedly great public favourite, Madame Paoli Bonazzo, takes her benefit to-night in the Politeama in Cavalleria Rusticana. All nationalities in the city admire her great artistic gifts, and we call on her numerous English admirers to muster in force to-night.

We are asked to announce that a public entertainment will be given this evening at the Boca Mission Hall, Calle General Brown 1190, by the English Sunday School of this centre, commencing at 7.45. The programme consists of Recitations, Solos, Duets, Trios, and Choruses in English and Spanish. Entrance and Exit free of charge. All are invited. A collection for the benefit of the school will be taken.

We thank "La Tribuna" for its valuable "Anuario Politico, Economico y Internacional" for 1891. It is a most valuable book of reference, which all who follow closely the march of the country, either through interest or pleasure, should have in their libraries.

Oh! It is said that there are at present in the Penitentiary 300 prisoners who have been there for months and months waiting in vain for even the preliminary steps for their trial. This is an old abuse. But the criminal courts are either overwhelmed with work or not up to the mark. We are inclined to think the former.

Our brother of the pen in Santa Fe who recently called the Swiss in this country "a pack of adventurers" has been challenged to mortal combat by one of them, but is trying the same game as Chile with our good relative Jonathan, and says that arbitration is more in his line than powder and cold lead.

Spontaneous Locustion is reported in Aconcagua (Chile) on Mrs. Edwards's estancia. The peasants all swear that the insects could not have come from other parts without their knowledge, and that they are genuine Chilian Locusts.

Uncle Sam's ultimatum to Chile has sent an electric shock through all his so-called "hermanas republicanas" who speak the sonorous tongue of old Castille. It is truly tremendous, and there is very little of the "hermana" about it. The Chilians are trying to have the matter settled by arbitration; but Uncle Sam's "dander" is up, and he will probably scout the idea. The mediation of some friendly power might, perhaps, induce him to let our Transandine neighbours down a little easier than his ultimatum indicates. President Montt's debut as a ruler has not been happy in foreign affairs. That circular note of Matta's upset the pot.

We saw another Inspector row yesterday in an Anglo-Argentine car in Calle Piedad, corner of Talcahuano. A rude old carmudgeon stuck his "boleto" in his button-hole, but refused to take it out and hand it to the Inspector. A "blue" was called, but his persuasive powers failed to induce old stiff-neck to hand the ticket to the Inspector. After five minutes' talking, shouting and whacking of sticks by impatient passengers, etc., etc., the car drove on, leaving the old chappie with the pink decoration still in his button-hole. We hereby certify that the Inspector, the guard and the policeman all behaved with the utmost moderation and politeness.

Another wooden shanty at the corner of Velez Sarsfield and Cangallo ended in smoke yesterday morning. The owner and his interesting family had a very narrow escape of ending in the same disagreeable fashion. Loss $10,000. Insurance $8,500.

The Passionist Fathers will commence a Mission in the parish church of Lobos next Sunday, after the Mass at 11 o'clock.

The pensioners and "jubilados" of the province of Buenos Ayres are in anything but a jubilant frame of mind. For five months they have not received a cent, and have almost forgotten what a shinplaster is like. They say that their hearts would overflow with gratitude for even the small mercy of one month's cash out of the five. What a chance they have of it. Try air and music a little longer, ladies and gentlemen.

The dreadful murder and suicide in Don Adolfo Bullrich's quinta at the Tigre has horrified the public. The victims are his niece, Mrs Schutt de Lebron and her husband, Sr Joaquin Lebron, aged respectively 24 and 21. They had been four years married, but had no children. They were on a visit at the quinta. On Tuesday evening Lebron returned from town and went to his wife's room. Dr. Mosquera, Mr. Bullrich's son-in-law, who was walking in the grounds with his children, suddenly heard four shots; he rushed in, forced open the door of the room and found the unhappy couple dead on the floor. Lebron had first stabbed his wife in ten places and then discharged two shots through her back; he then blew his own brains out. The murderer and suicide left several letters, showing that his awful double crime was not the result of a momentary impulse, but deliberately planned. We sincerely condole with Don Adolfo Bullrich and his family in their affliction at this terrible event.

Here's something from *Scientific American*, for the delectation of our sporting readers:—"While the public is still marvelling over Salvator's wonderful performance in running a mile in 1 35¼, there are few who have, through comparison and analysis, sought to realize what a terrific burst of speed this is. It is nearly forty miles an hour—a rate averaged by very few of our fastest railway trains. There are 5,280 feet in a mile, so that for every one of these ninety—five seconds—for every beat of a man's pulse—this wonderful horse covered fifty-five and three-tenths feet of ground. The shortest space of time noted by the turfman's watch is a quarter of a second—an interval so brief that the eye can hardly observe, the mind can hardly appreciate it. Yet in every one of these 382 quarters of a second that magnificent creature leaped sixteen and three-tenths feet. Such are the amazing results of careful breeding as exhibited in the American race horse."

Some people are never content. Here are the great circus men, Carlo Brothers, bringing out fresh talent, though their monster tent at corner of Montevideo and Cuyo streets is too small to hold the crowds of leading native and foreign families that nightly turn in to laugh and grow fat. Other less enterprising 'empresarios would be satisfied with their present staff, but these sleepless caterers for public health have actually engaged a fresh band of clowns and acrobats, who promise to astonish the public. The new pantomime of "Fra Diavolo" was given last night with splendid success, the place having been closed during the two previous nights, to admit of the necessary repairs being concluded.

Yellow fever is steadily increasing in Rio, and the foreigners there have protested against the supineness of the sanitary authorities. On the 17th of this month there were *ten* sudden deaths in the city.

The National College in Catamarca has gone to the dogs as well as that at Rosario, and the Rector, Vice Rector and four Professors have been sent about their business. Politics ruined the College, as, from the Rector down to the youngest student, all were up to their eyes in the congenial game.

Colonel Goldsmith, a retired British officer, is shortly expected here, to assume the management of Baron Hirsch's colonies.

We have to thank Mr. English for another kind effort to keep us alive during this terribly hot summer. The Monopole, Apollinaris and other Mineral Waters for which his firm is renowned now make the STANDARD cellar second to none, and we tender him our best thanks.

We find the following curious news in the *Panama Star*. It was first started, we think, by our highly imaginative North American cousins, who like their news highly spiced, no matter whether it be true or not: — "Some astonishing stories are current of the fabulous wealth of Herman Celman, the young son of ex-President Celman of the Argentine Republic, who is reported to be on his way to the United States in one of the finest yachts ever launched. The young man's income is put down at $500,000 a year!" This is indeed an "astonishing story".

During the next ten days all our surplus of Summer Goods will be sold at cost prices, so as to reduce the stock previous to removal next door.
The prices are all marked in plain figures and are in many cases below cost, so that we expect to realize a speedy sale.

Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
JOHN KELLIE.

It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.

Wednesday, Jan. 27th.

The gold market did not advance much this morning, but it showed signs of great firmness. The political bugbear is at the bottom of the distrust that is rampant in all circles, and is considered the main cause of the rise in gold; in fact, there is an uncomfortable feeling all round. About fifteen thousand ounces changed hands at the first ring; the price opened at $62, rose to 62.10, and closed at 61.90, say 280¾ % premium. Nine hundred sovereigns were sold at $19.15 and 19.20, say 281 % premium. The market closed hard.

Patriotic Bonds were weak at 57.60. Catalinas lingered at 6.70. After a long absence, Obligaciones of the Banco Constructor de la Plata put in an appearance to-day; a lot of 1000 changed hands at 70 cents each. A few thousand National Cedulas D were done at 70. La Plata Cedulas fell again to-day: Series A closed at 31, K at 29, G at 28, L at 29.60, F at 28, M, N and O at 28.90, and P at 29.60.

Exchange ruled very quiet all morning. The rates were quoted at 5.08 to 5.09 fcs. on Paris, 5.10 fcs. on France, and up to 5.11 fcs. on Antwerp. Exchange on London was nominal at 48½-¾d. Some West Coast bills were done to-day at 48½-¾d.

Discounts continue very difficult at 10 to 11 % per annum. All the banks are resting on their oars, and the demand for money outside is daily greater.

The R. M. S. Trent has arrived in the river. Special interest is attached to her arrival as she has aboard four hundred thousand sovereigns for this market. Talking of gold shipments, we hear that one hundred thousand sovereigns are on the way out for the Banco de Italia y Rio de la Plata.

Affairs in the wool markets were again very dull this morning. Both buyers and sellers were looking forward with interest to news about the Colonial wool sales in London, and business was put off in consequence. At noon the news spread that prices at the sales had opened with a fall of 4% compared with closing rates of last auction. This news may induce consignees and farmers to let go, but many will prefer to wait for what is considered an imminent rise in the gold premium.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Five hundred tons of linseed were sold to-day to deliver in Zarate at $1.59 per 10 kilos.

The Board of the Banco de Italia y Rio de la Plata has decided that the dividend for the year 1891 be fixed at 4 %.

Telegrams from Rio quote exchange on London at 12¼d; this is a rise of ¼d.

The price of steers in Montevideo for saladero varies from 9.75 to 15$fts.

The great Casa Blanca saladero of Piñeyrua has begun work; the slaughter up to 24th inst reached 2,600 head.

Our balance-of-trade friends will be delighted to see from the appended figures for 1891 that the Banda Oriental is in the full fruition of unrivalled prosperity, owing to a great excess of exports over imports, viz:—

Imports.... 18,978,420.47$fts.
Exports.... 26,998,270.11$fts.

If the above figures were reversed perhaps we might see a better state of affairs in the Mount; for the streets are deserted, the shops, banks, tramways, etc. are empty, and money is so scarce that business is at a complete standstill. The men in Government are puzzled at this state of affairs; and some shrewd financiers propose inconvertible paper money; others propose a consolidation of the debt; others move a new Banco Nacional de Uruguay. The finale, however, threatens to be a general collapse, in spite of the confident hopes that eight million gold dollars are ready in London to start the new bank.

The following telegram was received from London to-day:—

London, 26th Jan. 1892
The Colonial wool sales began to-day and opened with a fall of ¼d in prices. The attendance of buyers was large, and the demand was moderate. Thirteen thousand bales of wool were sold.

The above telegram confirms the fears of wool-buyers who argued that the auction would open with a considerable fall in prices. The decline of ¼d is calculated at 4 to 5 %. The fall in London implies a reduction in the limits of wool purchases here and to-morrow's telegrams from France are looked forward to with much interest.

The English Bank of the River Plate, after paying its creditors 20 % cash and 50 % in so-called cheques or "vales," has issued a notice that the balance, say 30 % more or less, will be paid in cheques. This announcement produced an unusual supply of cheques and caused a headlong fall. These cheques, which were quoted at 14 to 18 % discount, were done to-day freely at 25 % discount. The gold cheques of the Bank were done at 11 %.

Colonel Rhode has proposed to draw up a postal and telegraph map of the Republic, accompanied by a directory with all details of that department. The Director General of the Post Office supports the idea and he considers the map a great necessity for the postal and telegraph service of the republic. Colonel Rhode proposes a map of 1.65 metres high by 1.05 metres width. The new map will no doubt meet a long felt want, not only in Government but also in commercial circles; it is a step in the right direction.

The gold market continued very firm at the second ring. Five thousand ounces were sold for to-morrow: the price opened at $62, fell to $61.80, and closed at $61.90. Five hundred sovereigns were sold, the price opening at $19.20 and closing at $19.15. Patriotic bonds fell to 57.40. La Plata Cedulas were dull and weak.

The Minister of Finance has fixed the rate of gold at 360 for to-morrow for payment of Customs dues.

There were heavy buyers of gold to-day offering 70 cents contango for the end of February.

Cheques of the Provincial Bank closed at 40⅛ % discount this afternoon.

Engineering Education in England.

University College, Bristol, Professor J. Ryan, D. Sc; M. A; L. L. M. Membre de la Société des Ingénieurs Civils (Paris.)

In this College Students are trained for the various Engineering professions, Civil, Mechanical, and Electrical, and courses are adapted for Mining Engineers and Surveyors.

The special feature of this College is its direct connection with Engineering Works and Engineering Firms, by which the students are enabled to get their practical training in the actual workshops in the West of England. The College is situated in Clifton, one of the most famous winter resorts in Great Britain, and always possesses a number of students from South America. For further particulars apply to

Superintendent—
Mr. CARSON.

Patients are received on Tuesdays and Fridays, and a carriage will be at Lomas Station to meet the train which leaves Plaza Constitucion at 1.30 p.m., so as to convey them and their luggage to the Home.

Private patients pay $5 per day; ordinary patients $2 per day.

Recommendations for free orders can be obtained from any member of the Committee, but applicants must prove that they have no means wherewith to meet the ordinary charges of the Home.

To obtain the order for admission, a recommendation must be taken to the Hon Medical Officer, accompanied by a note from the patient's doctor certifying that this a case coming within the rules of the Institution.

Visitors are allowed to see their friends on Wednesdays and Sundays from 1 to 5 p.m., and for their convenience a Brake belonging to the Institution will on every Sunday afternoon be waiting the arrival of the 2.15 train at Lomas, (train leaves Plaza Constitucion at 1.45 p.m.) and take them to the Home and back free of charge.

Subscriptions and donations in aid of the funds of the Home will be thankfully received by the Honorary Treasurer.

TEA
LA MAGNOLIA

INJURIOUS TEA DRINKING.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·78 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

GUARANTEED PURE.

AVISO

Informe sobre el Análisis Quimico del Whisky, marca "S.S.S."

Yo, el abajo firmado certifico que, a ruego de los Señores Wm. Stenhouse y Cia., Glasgow, he practicado un Análisis minucioso, y hecho examen microscópico de una muestra de

STENHOUSE'S SPECIAL SCOTCH WHISKY, de la marca

"S.S.S."

y tengo mucho gusto en certificar que el Whisky de dicha marca "S.S.S." es uno de los mejores que se me han presentado para examen analitico en mucho tiempo.

Lo encuentro enteramente puro y sin adulteracion alguna bien madurado y "especialmente adaptado para el consumo de las personas de salud delicada." Puedo recomendarlo con toda confianza

LAIDLAW'S

Tobacco  Powder

Laidlaw's Tobacco Powder has many advantages over **Arsenic Powders and Pastes** for curing Scab.

Arsenic Powders and Pastes have many objectionable defects **Laidlaw's Tobacco Powder** has none.

Arsenic Powders and Pastes are very dangerous and in many cases large lots of Sheep, Cattle and Horses have been killed by them.

Laidlaw's tobacco Powder has no bad effects on either Sheep or men applying it.

Laidlaw's Tobacco Powder costs less than Arsenic Powders and Pastes, is always of one uniform strength and can be relied upon with perfect confidence, and does not injure the wool, but on the contrary improves the quality and increases the quantity.

ARSENIC POWDERS AND PASTES

Dry and burn the wool, and diminish the quality and quantity.

EXTRACT OF TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infalible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

Directions for use

One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

DR. J. COLLIS BROWNE'S

CHLORODYNE.

The original and only genuine

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.

From Symes & Co, Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Cholerale Diarrhœa, and even in the more terrible forms of Cholera itself, we haye witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See the "Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.

Excepcional Remate de

2,000 Esplendidas Vacas Durham, mestizas

con novillada y con 30 toros padres puros, procedentes del renombrado establecimiento "Miraflores," propiedad del Señor Don Exequiel Ramos Mejias. El remate tendra lugar en las inmediaciones de la estacion Julio Arditi (F. C. de la Magdalena)

El Domingo 21 de Febrero

a la 1 de la tarde

Las vacas que ofrecemos en venta son especialisimas y pocas veces se presentan ocasiones como estas de hacerse de inmejorables planteles.

Estas haciendas proceden de un rodeo de vacas mestizas que formó a eleccion el Sr. Ramos Mejia y cuyos novillos se han vendido siempre a precios muy elevados, habiendose obtenido hasta 100 pesos cada uno.

Hace muchos años que estas vacas se han reproducido con toros puros de inmejorable sangre y anualmente se han hecho depuraciones y limpiezas dejando solo lo muy bueno y sacando lo inferior para consumo o para venta.

Los 30 toros son puros por cruzamiento, pues tienen 50 años de mestizacion, siempre con inmejorables reproductores de las buenas cabañas de Inglaterra.

La venta será en lotes para planteles al gusto de los interesados.

Un tren expreso saldra de la Estacion Central a las 10.25 a.m. regresando una vez concluido el remate. Mas datos a nuestra casa Alsina 480 y 482.
